A Career Assessment Specialist works with each student to provide support in determining options for their high school education and beyond.

The Ohio Means Jobs website contains information to aid in further researching academic and educational expectations and requirements for various pathways and careers.

### DISCOVER IF PENTA IS THE RIGHT PLACE FOR YOU!

After the Career Assessment, a personalized report is created, including results of all activities and assessments, as well as recommendations for the future. The report is mailed home and to the member high school counselor.

*Career Scope Aptitude Assessment is a computer assessment tool which measures a variety of student aptitudes or natural abilities. A report is created from the results suggesting matching Career Cluster Pathways*
