Chromebook Instructions

Stick the Student's info card here.....

- 1. Open the lid of the Chromebook
- 2. Locate and press the power button. Depending on your model, the power button will either be located on the:
 - a. right side edge of the computer
 - b. top-right corner of the keyboard
 - c. top-left corner just above the keyboard.
 - i. If the computer does not power up, the battery might be dead, proceed to plug in the power adapter and restart from step 1.

The following steps can sometimes happen in a different order each time, therefore I will present pictures followed by instructions on what to do when you are faced with a particular situation.

(A) Sign in to your Chromebook! When presented with the picture below, please login with your credentials by typing in your Username, clicking next, then typing in your Password. Here is an *example* of what a Student's username and password look like:

a. Username: 20msmith_79b. Password: 48907

(B) Log-in to our content filter! When presented with the picture below, please login with your credentials by typing in your Username and Password. Then, proceed to click the login button.
