Response Form

first_name	last_name	email	organization
Test	Tricia	thornyc@pentacareercenter.org	Anthony Wayne High School

Rank	YouScience Program	Penta Cluster	Penta Labs to Consider
1	Masonry	Architecture & Cons...	Construction Carpentry, Masonry, Construction Electricity, Construction Remodeling, Heating & Air Conditioning Technology
2	Construction	Architecture & Cons...	Construction Carpentry, Masonry, Construction Electricity, Construction Remodeling, Heating & Air Conditioning Technology
3	Energy Systems	Engineering	Information Technologies Academy, Computer Aided Design, Powersports & Engine, Robotics & Automation

Instructions

On the top of this page you should see your name, email, and home district. Under that, you will see a table of information that ranks YouScience programs and provides you the associated cluster and specific labs available at Penta. You should review the Penta Labs listed to the right with your YouScience programs and consider these as recommendations based on data.

On the next page you will see a Google Form where you will make two (2) selections for the Penta CT Lab that you are most interested in visiting.

Be sure that you don't choose the same lab for both first and second choice, or the second choice will then be made for you!
