20-21 End of Year Summary Perrysburg High School

The information provided below evidences the High School Counseling Departments delivery of services during the 2020-2021 School year. It is important to note that this data reflects the direct and indirect services provided to student and families under the construct of a Hybrid learning schedule. Trends in the data suggest that, students were provided more indirect services in the way of non face to face support than in 2019-2020. Additionally, data evidencing that referrals, consultation/collaboration increased indicates there were more outreach to support students in the Hybrid type of educational experience. Programing and management stayed consistent as well as a very low percentage of non-school counseling tasks.

FOCUS ANALYSIS

Referral Source Analysis 2020-2021

REFERRAL SOURCE ANALYSIS

As compared to 2019-2020, the percentage of students referring themselves is up 14.1% and counselor initiated referrals are also up by 12.5%. As a result referrals made by parents, and other school related professionals as a group decreased. This could be that they are more comfortable or that now that they are physically in the building more, they are more frequent
