Dear Parents/Guardians,

Perrysburg Schools is pleased to announce that we will once again be using Schoology for student progress reporting, classroom information and school announcements this school year. Our teachers and staff have been through more training and updates have been made to the platform by the engineers at Schoology in response to feedback from our district representatives. We are confident you will have a more consistent and reliable experience this school year.

Attached is a quick parent directions sheet to get you up and running promptly. All student passwords have remained the same. If your child has forgotten his or her password, a reminder can be sent to their school email using the Forgot Your Password link on the home login page at https://lms.perrysburgschools.net
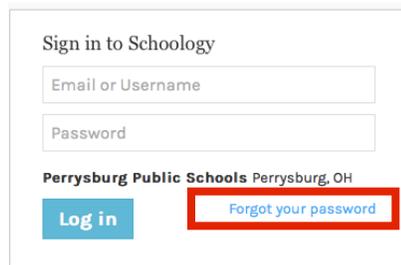

All parent/guardian passwords have been reset and new passwords were sent via email to the address we have on record in Schoology. Parent/guardians will receive an email directly from Schoology with their username and passwords. We've found that emails from Schoology occasionally get caught in email spam filters, so please check these filters if you have not received the email from Schoology. If you have difficulty with your username and/or password, please contact your child's school office.

Perrysburg Schools has set up a course in Schoology to answer many of your questions and provide training videos and materials. We encourage all parents to join this course by doing the following:
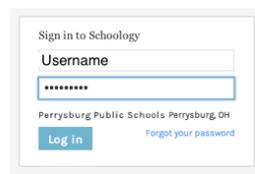

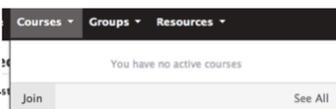

Additional training is also planned for August 26, 27 and 28. Sessions will be offered from 4:00pm-5:30pm and 6:00pm-7:30pm each day. This will be live, in person training showing how to login, navigate and utilize the platform to help monitor your child's progress. You can reserve a spot at these trainings by going to the following web link and choosing a day and time: http://doodle.com/vtz88547msgrw8pg

We look forward to a great year!

Go Jackets!
