

Perrysburg Schools On-Line Courses

Curriculum

Edmentum's courseware is an online mastery-based curriculum. Most modules contain a tutorial, an application, and a mastery test. Students will work through and gain knowledge about the lesson through the tutorial. They will practice the skill through the application. Then, they will complete the mastery test. Students must score at least 80% to pass each mastery test. If the minimum score is not earned, the mastery test will lock. The student will review the tutorial and practice the application. After reviewing, the mastery test will unlock for the student to take again. We recommend that students take their time and go through all parts of the module (lesson) before taking the mastery test initially.

In order to earn credit, students must:

- Complete all assignments
- Score an 80% or above on all mastery tests.
- Complete all post-tests
- Complete the end of semester test

Grading Scale

In order to earn credit, students must meet all course requirements by the deadline. For more specific information about the requirements for the course(s) you are taking, please refer to the course syllabi found in the Course Catalog.

A	95.5 – 100	C+	77.5 – 81.4999	D-	60.5– 63.4999
A-	91.5 - 95.4999	C	73.5 – 77.4999	F	0 – 60.4999
B+	88.5 – 91.4999	C-	69.5 – 73.4999	I = Incomplete	
B	85.5 – 88.4999	D+	66.5 – 69.4999		
B-	81.5 – 85.4999	D	63.5 – 66.4999		

Plagiarism Policy

Perrysburg Schools takes plagiarism very seriously. What is plagiarism? Simply put, it is taking the words or ideas or another person and passing them off as your own – that is, you have failed to "cite," or name, the source from which you collected your information. In plain words, you are copying. Plagiarism may result in being asked to redo the assignment, receiving a 0 for the assignment, or not receiving course credit. Please be sure that all work you submit is your own original work or that it is properly cited.

Frequently Asked Questions

How can I see what courses are available?

All course offerings can be found below.

What if I experience technical issues or need help getting started in my course?

Dedicated teachers are available to each student during a dedicated study hall. This teacher can help with any issues and contact other support personnel if needed.

Are Online courses recognized by NCAA?

Courses completed through Perrysburg Summer School may not be accepted by the NCAA.

Are special needs accommodations made in this program?

Some accommodations are available and provided within the online courses; therefore, it is important that you speak with your counselor to make sure that online courses are the right option.

Semester 1, 2	Art Elective	1.0	Art in World Cultures v2.0	<p>Who do you think is the greatest artist of all time? Maybe Leonardo da Vinci? Michelangelo? Maybe a more modern artist like Claude Monet or Pablo Picasso? Or is it possible that the greatest artist of all time is actually someone whose name has been lost to history? In Art in World Cultures, you'll learn about some of the greatest artists in the world while creating your own art, both on paper and digitally. This course explores basic principles and elements of art and teaches you how to critique different art works art. And along the way, you will get to discover some traditional art forms from various regions of the world including the Americas, Africa, and Oceania.</p> <p>Note: This course has 12 units and is recommended to be taught over 2 semesters, but can be accelerated to be completed within a single semester if desired.</p>
Semester 1, 2	Art Elective	0.5	Music Appreciation: The Enjoyment of Listening v2.0	<p>Have you ever heard a piece of music that made you want to get up and dance? Cry your heart out? Sing at the top of your lungs? Whether pop, classical, or anything in between, music provides a powerful way for people to celebrate their humanity and connect with something larger than themselves. Music Appreciation: The Enjoyment of Listening not only will provide a historical perspective on music from the Middle Ages to the 21st century, but it will also teach you the essentials of how to listen and really hear (with a knowledgeable ear) the different music that's all around you. Learning how to truly appreciate sound and melody is the best way to ensure a continued love of this delightful art form.</p> <p>Note: This course has 8 units and is recommended to be taught over a single semester.</p>

Semester 1, 2	World Language	0.5	PLATO Course German 1. Semester A v5.0	In German 1A, students will be introduced to several common situations in which people communicate, such as exchanging names and greetings, describing people by physical and personality traits, and describing family members and aspects of their social life. They will start with basic sentence structures and grammatical tools, and they will communicate by listening, speaking, reading, and writing in German as they internalize new vocabulary and grammar. Students will also learn about some regions of the German-speaking world that the central characters of each unit are visiting. They will build on this semester's work as they advance in their German studies: everything that students learn about a language and the cultures in which it is spoken will serve as a foundation for further learning.
Semester 1, 2	World Language	0.5	PLATO Course German 1. Semester B v5.0	In German 1B, students will be introduced to several common situations in which people describe how to earn, save, and manage money, modes of urban transportation, various seasons and the associated weather conditions, food, clothes, and activities. They will also describe various art forms, plays, concerts, and movies. Students will discuss health and well-being, and travel and tourism. They will build on what they have learned in the German 1A course to communicate by listening, speaking, reading, and writing in German as they internalize new vocabulary and grammar. They will also learn about some regions of the German-speaking world that the central characters of each unit are visiting. Students will build on this semester's work as they advance in their German studies: everything that they learn about a language and the cultures in which it is spoken will serve as a foundation for further learning.

Semester 1, 2	World Language	0.5	PLATO Course German 2. Semester A v5.0	In German 2A, students will be reintroduced to German in common situations, beginning with describing classes, school friends, teachers, and school supplies. They will discuss different styles of dressing, housing and neighborhoods, and learn about relationships between family members and friends, students and teachers, and employees and employer. They will also describe daily personal routines and schedules, household chores, and family responsibilities. Finally, students will discuss different types of cuisine, dining establishments, and dining etiquette. They will build on what they learned in the German 1B course to communicate by listening, speaking, reading, and writing in German as they internalize new vocabulary and grammar. Students will also learn about some regions of the German-speaking world where the central characters of each unit are visiting. Students will build on this semester's work as they advance in their German studies: everything that they learn about a language and the cultures in which it is spoken will serve as a foundation for further learning.
Semester 1, 2	World Language	0.5	PLATO Course German 2. Semester B v5.	In German 2B, students will be reintroduced to German in common situations, beginning with various professions and career plans for the future. They will discuss traveling to various regions and the flora and fauna found in each region and describe types of trips, including road trips, camping, and ecotourism. They will also describe hobbies, activities, and crafts that people enjoy. Finally, students will discuss medical specialists, including dentists and veterinarians, and symptoms related to illness and injury. They will build on what they learned in the German 2A course to communicate by listening, speaking, reading, and writing in German as they internalize new vocabulary and grammar. They will also learn about some regions of the German-speaking world where the central characters of each unit are visiting. Students will build on this semester's work as they advance in their German studies: everything that they learn about a language and the cultures in which it is spoken will serve as a foundation for further learning.
Semester 1, 2	Science Elective	0.5	Astronomy 1a: Introduction	Ever wondered how the Earth developed and exists in the vastness of space? How do the scientific laws of motion and gravity play a role in its existence? Discover answers to these questions and explore the origin of the universe, the Milky Way, and other galaxies and stars, including the concepts of modern astronomy and the methods used by astronomers to learn more about the universe.

				Note: This course has 8 units and is recommended to be taught over a single semester.
Semester 1, 2	Science Elective	0.5	Astronomy 1b: Exploring the Universe v2.0	<p>Building upon the prior prerequisite course, dive deeper into the universe and develop a lifelong passion for space exploration and investigation. Become familiar with the inner and outer planets of the solar system as well as the sun, comets, asteroids, and meteors. Additional topics include space travel and settlements as well as the formation of planets.</p> <p>Note: This course has 8 units and is recommended to be taught over a single semester.</p>
Semester 1, 2	Social Studies Elective	0.5	Law & Order: Introduction to Legal Studies v2.0	<p>Imagine if there were no laws and people could do anything they wanted. It's safe to say the world would be a pretty chaotic place! Every society needs some form of regulation to ensure peace in our daily lives and in the broader areas of business, family disputes, traffic violations, and the protection of children. Laws are essential to preserving our way of life and must be established and upheld in everyone's best interest. In Law and Order: Introduction to Legal Studies, you'll delve deeper into the importance of laws and consider how their application affects us as individuals and communities. Through understanding the court system and how laws are actually enacted, you will learn to appreciate the larger legal process and how it safeguards us all.</p> <p>Note: This course has 8 units and is recommended to be taught over a single semester.</p>
Semester 1, 2	Social Studies Elective	0.5	PLATO Course Economics v3.0	This course covers basic economic problems such as scarcity, choice, and effective use of resources. It also covers topics on a larger scale such as market structures and international trade. It particularly focuses on the US economy and analyzes the role of the government and the Federal Reserve System.
Semester 1, 2	General Elective	0.5	Life Skills: Navigating Adulthood	What do you want out of life? How do you achieve your dreams for the future? These can be difficult questions to answer, but with the right tools, they don't have to be. This course will encourage you to learn more about yourself and help you to prepare for the future. You will explore goal setting,

				<p>decision making, and surviving college and career. You will also discover how to become a valuable contributing member of society. Now is the time to take action. It's your life, make it count!</p> <p>Note: This course has 8 units and is recommended to be taught over a single semester.</p>
Semester 1, 2	General Elective	0.5	Careers in Criminal Justice 1a: Introduction v2.0	<p>Most of us have watched a sensationalized crime show at one time or another, but do we really know how things work behind those dreaded prison bars? Do we really understand all the many factors in our justice proceedings? The criminal justice system is a very complex field that requires many seriously dedicated people who are willing to pursue equal justice for all. The Careers in Criminal Justice course illuminates what those different career choices are and how the juvenile justice system, the correctional system, and the trial process all work together to maintain social order. Find out more about what really happens when the television show ends and reality begins.</p> <p>Note: This course has 8 units and is recommended to be taught over a single semester.</p>
Semester 1, 2	World Language	0.5	American Sign Language 1a: Introduction v2.0	
Semester 1, 2	World Language	0.5	American Sign Language 1b: Learning to Sign v2.0	
Semester 1, 2	World Language	0.5	American Sign Language 2a: Communicating v2.0	
Semester 1, 2	World Language	0.5	American Sign Language 2b: Advancing	

			Communication Skills v2.0	
Semester 1, 2	World Language	0.5	American Sign Language 3a: Community and Culture v2.0	
Semester 1, 2	World Language	0.5	American Sign Language 3b: Conversations and Culture v2.0	
Summer	Health P.E.	0.5	Health	This course is based on a rigorously researched scope and sequence that covers the essential concepts of health. Students are provided with a variety of health concepts and demonstrate their understanding of those concepts through problem solving. The five units explore a wide variety of topics that include nutrition and fitness, disease and injury, development and sexuality, substance abuse, and mental and community health.
Semester 1, 2, Summer	Math Requirement	0.5	PLATO Course Financial Mathematics, Semester A	<p>Not to be used in place of Alg. 2 Could be used as the 4th Math credit in conjunction with Financial Mathematics Semester B.</p> <p>Financial Algebra is designed to instruct students in algebraic thinking while also preparing them to navigate a number of financial applications. Students will explore how algebraic knowledge is connected to many financial situations, including investing, using credit, paying taxes, and shopping for insurance. In studying these topics, students will learn about the linear, exponential, and quadratic relationships that apply to financial applications. In addition, the course will help prepare students to tackle the wide variety of financial decisions they will face in life, from setting up their first budget to planning for retirement.</p>
