

Returning Student Information for 2023-2024 School Year

Good Morning Families,

As the school year draws to a close, our thoughts turn gratefully to everyone who made this year successful – our students, families, faculty, staff members, volunteers and everyone who cheers for our Jackets!

We would like to share some information with you about the coming school year that we hope you find helpful.

- **Registration for returning students** will take place in the middle of June using FinalForms as the information collection platform. Families will be asked to review and/or update their information to ensure accuracy and sign annual back to school consent forms for the 2023/2024 school year. More information about this process will be sent soon.
- **PowerSchool** is still in use as our student information system and **Schoology** will continue as our learning management platform.
- Details about **laptops/one-to-one devices for grades 5-12** will be sent in July.
- **Transportation** stop times and locations will be emailed one week before school starts.
- Each school's contact information may be accessed on their [webpages](#). We encourage you to load these into your contacts for the coming school year, especially if your child will be moving to a new school building.
- One district-wide **Student and Family Handbook** that addresses all grade levels, Preschool through 12th Grade, has been adopted. It is a GoogleDoc, so it is print-friendly with a traditional table of contents but is also mobile-responsive with links in the table of contents to jump to a section. It may be viewed using the link below.
